Agenda item:	Figure out what we have to complete	Presenter:	Vraj Shah
---------------------	-------------------------------------	-------------------	-----------

Discussion:

What is the point of these meetings? What do we have to do in these meetings? What are we going to do next? What do we have to work on by the next meeting?

Conclusions:

In this meeting we familiarized ourselves with what we must do for this project, what these meetings are for and what we are going to do next. We discussed that we are going to create a google slides where we are going to keep track of the work we are doing in the class and in the process create a presentation for the demo. To demo our application, we are going to create a Figma to show the class how the website should be designed for the best user experience.
